“ *My Uncle Teddy in his younger days was quite the Daredevil. When I was around 4 years old Uncle Teddy bought an airplane . He told my dad John Ray grab Johnette and take her for a plane ride . I loved it being up in the air and Uncle Teddy took me right over the top of my house in his plane. We were so close to the roof and telephone poles that we could probably talk to people on the ground . After I became an adult I laughed and said that was so dangerous what we did find that close to the ground. But that's how my Uncle Teddy lived his life and you didn't seem to be afraid of anything . I will be thinking of his family during this time . Johnette Ray Armstrong*
