“ I came to know Cheri through AALS, a legal professional association. From the first moment I met her, I knew she was a good person and a professional. We worked on several boards, and I was pleased to serve on her executive board when Cheri was state president. Cheri was always interested in promoting the association and doing what was best for the membership. She served for multiple terms as the treasurer of the association. She always took that extra step, whether for her family, friends, job or AALS. Cheri was someone who would be there.

I also came to know Cheri as a friend. She was a person you could talk to about your most profound problems, and she would offer comfort, criticism or a big hug if that is what you needed. She would encourage you to go beyond your comfort zone to grow as a person. You could look over at Cheri during a tense meeting, and she would have a twinkle in her eye and a tiny smile that would soon burst into a laugh. She was a calming force and a person you could spend hours laughing with or being that rock you needed from time to time.

I am grateful to Cheri's family for allowing us to know and share time with Cheri. I know this, Cheri; you made a difference and positively impacted numerous lives and careers.

Cheri, we will miss you, but you will never be forgotten.

“ I will never forget the first time I met her. We were all so young and of course it was at one of our family Easter gatherings. No offense Frankie, but I wondered what she was doing with you lol. She fit right in with our huge family and I regret that we stopped having those get togethers. I pray that you all know and I think you do, that Jesus broke the mold after he made her. She was and is definitely one of a kind.
