“ I am at a loss. The world is a little bit dimmer with the loss of your light. Fly high Falcon!

“ Dianne, we met because we went to the same school overseas and both our fathers worked for the International Civil Aviation Organization (ICAO). We became friends and I loved your sense of humor and your love of life (especially beaches and cats). You were so kind, reaching out to check on me regularly when my son had a fatal heart attack. If the world was filled with Dianne's, it would be a far gentler place. I miss you dearly.  
Rest well and cuddle with all the kittens you can find. My love always!  
Delia
