“ My best friend since the 3rd grade. I am so sorry I have not been to see her since the pandemic. Thought of her so many times. Tried to call. Still have her number in my phone. She was one of a kind. No doubt the most popular and well liked girl in our Toolen class. I will never forget you.

*I know she was crazy about you and I tried to get your number but I had no idea how to find it. I did try though. I wanted to have a memorial service for her but it's so hard to get in touch with everyone and it's just been hard on us. Alice's daughter Lynn did everything for her the last like 5 years. She was definitely mom's angel on earth. And Mom would not have wanted any of you guys to see her especially at the end. You know she always wanted to look her best and in the end...well you know how it is. She was not that spicy lady that was the life of the party. Thankfully once things did get bad, it was quick. She was done to like 70 lbs or pretty close to it. We did have her cremated which is what she wanted and I have her with me. We are going to try a meet somewhere maybe for dinner one night soon and if we do I will try and let you know.*
