PL

“ I had the pleasure of knowing and being a patient of Dr. Kovacs for the past 10 years. I had no idea she even passed away until I walked into the clinic last week and made my way to her office as I normally would do when it was time for my physical. I broke down in tears as I walked back to my car. I would always make her smile and giggle because she was such a petite little lady and I am a plus sized woman but, she'd pick me up and put me on the exam table because I was too short to climb up there. She was little but she was strong! I told her she had muscles! The clinic won't be the same without her. She was never rude to anyone even on days when she had patients outside her door fussing. She did what she had to do and got you in and out of there quickly all while smiling and listening to everything you had to say. I loved her accent! I could sit and listen to her talk all day. Thank you for your kindness, love, & patience Dr. Kovacs. You will be truly missed. 🕊️
