“ Ira, I called several times to wish you Happy Birthday but again no answer. Now I seem to know why, it's been a long time since we worked at the Radio station. God Bless and RIP

“ About a month ago, I sat with Ira at the Welcome Center on Dauphin Island and learned so much about his life . For instance, as a young high school boy he and a friend walked into the local radio station just to see how things worked. The lone announcer there spent an hour with them, and Ira went to work there the next week. He worked in 17 different radio stations in several states during the next 37 years.

We will miss the music and the way you made us laugh. Thank you Ira, for leaving your footprint on our souls. I want to sing in the heavenly choir where you're playing the guitar.
