HM

“*Joelle and ii met about two years ago she asked me for a ride back to her apartment because it was super super hot that day and the short amount of time to her apartment. We figured out that we both like Dr Pepper and both had parakeets so I gave her my number so we could talk or whatever and we ended up being really good friends. She was one of a kind, genuine, good hearted person and I'm really really gonna miss her. I do every day anyway my condolences to the family.*
