“ John was a personality plus and had such a way with words. Entertaining to say the least. There was a very serious side to John. He served in the military and was involved in the invasion of Cuba. He had many stories and experiences he shared. He was very concerned his grandchildren had educations in a university. He worried about them out loud. His love for his children and grandkids was unrelenting. His love for Murph was unending. You will be missed, John. I will miss your snide remarks on my Purdue post on Facebook referencing that other University in Bloomington. Jay will miss my reading your messages to him from you. Jay is very sad to know you are no longer a phone call away. Condolences to John's family. Hugs to you Murphy. Sharon and Jay Neal (ILICO)
