“ I have so many memories with my Daddy. I love you Dad you've been a present and active part of my life all of my life. You taught me to ride a bike, do a backbend, and be a loyal friend, you taught me everything I know. You showed me how to drive and how not to make some mistakes in my life. I'm glad you got to meet your grandkids. You will be missed and forever loved. I'm still shocked we won't ever get another day with you. Another cook out a jam session on the guitar or get to see any of your cool art work. I love you so much Daddy
