“ I loved my aunt Lavelle. Her family called her that. Aunt Labels was like a second Mother to me. No one told me you passed, You were one of the most amazing women I ever had privilege to have known. You was the worlds greatest seamtresses, You were very kind, and you loved me like your own daughter. If I had known of your passing I would have been right there for you. Who picked out your dress because you loved to dress classy. I even remember the color lipstick you wore and you always had on your earrings. I loved you as I was growing up and I love you now. Rest finally Aunt Velle. God Bless your precious Soul. You are walking with Jesus now. With Love, Shirley Dean

I tried to call you ShirleyYou and Caroline, the number she had written down for y'all was outdated...but she definitely felt the same sentiments towards you and all of her extended family that she lost touch with after being admitted to the assisted living center. Love and miss all of y'all & the holiday reunions we used to have back in the good old days. Thanks for the kind words and your heartfelt memories will continue to ripple through time on the wings of love that y'all shared together

Love you Mom ❤️

miss you and think of you often. Your Love and tender heart touched all who it came in contact withthe love and kindness you not only showed for your friends , family and loved ones changed many lives for the better. I know your at peace now and rejoicing now while sharing the company and being reunited with our loved ones in Heaven. I'm so proud to be able to call you my Mother and your love and faith will carry on.
