“ Oh Sue how we miss you. You impacted our lives. I keep looking down at your house and expect to see you "flitting" over to Pat's or mail boxes, or walking Beth. Never was quite sure who was walking who. I miss your quick and sassy wit, your smile or waving to me as you drove away. Don't worry about your yard we are taking care of it. I find peace and solice when I'm in your backyard watering your flowers, I some how feel closer to you. I'm finally paying my debt back. And by the way you still owe me a lunch!!! I will never look at your house with out hoping you will walk out that door at a trot going somewhere. There is a place in my heart for you always. Love ya, Carolyn

“ My mom... There is not enough words to describe how empty my heart feels now that she is gone. She was my best friend, I talked to her almost everyday but if we missed couple days we would talk for hours on the phone. She was the one person who never gave up on me, believed in me even thru my worst. Her laugh was contagious, her spunk filled a room with positive energy. She was Such a lovely, smart, and beautiful mom who was taken from us far to early. I will forever love her and she will forever be in my heart. Mom ill see again someday! Thank you for everything you did for me thru out life it never went unappreciated, I love you so much. -your daughter
